Education

CMR University Bengaluru, India
Bachelor of Technology in Computer Science and Engineering, CGPA: 8.7/10 *September 2024 – July 2028*

Experience

Full Stack Developer Intern June 2026 – July 2026
ATS-Technologies *OnSite*

- Designed and developed a modern, responsive business website for a recruitment, payroll, staffing, and HR services company.
- Built a professional user interface with responsive navigation, service-focused sections, call-to-action components, and modern visual design.
- Structured the website to clearly present recruitment, payroll outsourcing, staffing, and HR services, improving usability and professional online presence.

Projects

Khoon | *React.js, Node.js, Express.js, MongoDB, JWT, REST APIs*

- Developed a centralized blood bank management platform to streamline blood procurement and improve accessibility to blood-related services.
- Built the application using Node.js and Express.js, integrating frontend interfaces with backend services and database functionality.
- Designed the system to support emergency blood-service workflows and improve the efficiency of managing blood-related information.
- Implemented JWT-based authentication and REST APIs for secure communication between application components.
  Link

Personal Portfolio Website | *Next.js, React.js, Node.js*

- Designed and developed a responsive personal portfolio website to showcase projects, technical expertise, experience, resume, coding journey, and professional profile.
- Built structured sections for projects, technical stack, development process, GitHub, LeetCode, FAQs, and contact information.
- Integrated professional and coding profiles, including GitHub and LeetCode, providing recruiters with direct visibility into projects and coding activity.
- Deployed the portfolio website as a professional personal-branding platform.
